

LATE DINERS SEE RESTAURANT MAN SHOT BY BANDIT

Robbers Fleeing Before Patrons Can Stop Them Are Chased by U. S. Marine.

Three youths entered the Penn Post Restaurant at No. 415 Eighth Avenue, near 31st Street, late last night, ate a meal and then demanded that the night manager turn over the day's receipts.

Harry Sprays, twenty-one years old, of No. 334 Eighth Avenue, the manager, refused to comply with the order, whereupon one of the bandits fired four shots at him with a revolver. Two bullets struck him in the thigh. He fell before the few patrons in the place could intercept the robbers, who fled without emptying the cash register.

Private L. Brodie of the United

States Marines stationed at the general post office as a mail guard heard the shots. He ran into the street from the post office, saw the bandits hastening away and gave chase but they darted into the Pennsylvania Station, mingled with the crowd and were lost.

Sprays was taken to Bellevue Hospital. The bandits ranged in age from seventeen to twenty years. Only one displayed a revolver.

75. Lonely, He Ends His Life by Hanging.

Peter Unger, white haired, seventy-five years old, was found hanging by the neck from a high fence this morning at Gardiner and Johnson Avenues, Brooklyn. He was a widower, who lived at No. 45 Woodward Avenue. Witnesses who knew him slightly—for he had no intimate friends—said they had heard him speak sorrowfully about having outlived his generation and being lonely.

MRS. ENRIGHT RECOVERS HER LOST JEWELS

Picked Up by Saleswoman in Department Store.

Mrs. Richard E. Enright's jewels have been recovered. A saleswoman in Namm's department store, Fulton Street, found the emerald bag containing the \$3,000 worth of jewelry lost by the wife of the Police Commissioner. The store's post and found department turned it over to Frank Carberry, in charge of the detectives of the Atlantic Avenue Police Station, in which precinct the Commissioner lives, at No. 397 St. Mark's Avenue.

The saleswoman who found the gems is Mrs. Theresa Early of No. 1381 Bushwick Avenue, Brooklyn. At the store yesterday it was said, she had been "handsomely rewarded."

A Phonograph of National Repute

—You Will Be Sure to Recognize It When You See It

THE STORY IN FOUR BOLD PARAGRAPHS

A phonograph manufacturer of national prominence wished to discontinue one of his popularly priced period phonographs.

It was a big proposition—and turning to the natural outlet—sold them ALL to Gimbel's.

So here is a phonograph of the highest type, that has always been sold at the standard list price, offered at less than half price.

This extraordinary sale will only last as long as this limited quantity lasts. Therefore, better hurry.

Four Features of This High Grade Phonograph

THE CABINET

Designed in the Adam period now in vogue, and admirably adapted to phonograph cases. Excellence of workmanship, design and finish are points of great superiority in this high grade instrument.

THE AMPLIFYING HORN

The all-wood horn conforms at the neck to the shape of the tone arm, leaving a perfectly

smooth passage for the amplifying of the tone—the entire horn being so constructed as to bring the reproduction well forward.

THE TONE ARM

The tone arm is so designed and constructed as to play records of any make. A quarter turn of the reproducer and change of needles are all that is necessary to be ready to play an Edison or Pathe Record after a Victor or Columbia has been played, or vice versa. Edison and Pathe points are furnished with each instrument.

GIMBELS—Downstairs Balcony

THE REPRODUCER

The best authorities agree that the diaphragm of a reproducer should be of clear mica. All other materials are subject to atmospheric change or are likely to become deadened with age. Nothing but the very clearest mica is used in the reproducer of this high grade phonograph, which is otherwise so scientifically made that it reproduces any record with more than usual clearness and fidelity. An absence of shrill, nasal or metallic tones will be noticeable.
